

About our Hebrew School

Imagine a Hebrew School where kids don't want to miss a day. They come in with a smile and leave humming a Hebrew song.

Imagine a child who feels the warmth and spirit of Judaism and can sense its importance in today's society.

At Chabad, children don't just love to learn about Judaism, they learn to love Judaism as well. As affiliates of the international Chabad movement – the largest network of Jewish schools in the world – our schools enjoy a well-earned reputation as trendsetters in creative Jewish education for kids of all ages.

What is unique about Chabad Hebrew School is that the beauty, values and traditions of Judaism are brought to life through a kaleidoscope of activities and interactive lessons.

We've dedicated our resources to ensure that your child's experiences reflect a positive, cheerful and enjoyable chapter of his or her maturing process.

At Chabad Hebrew School, families feel comfortable and welcome. Our teachers are sensitive

to the diverse backgrounds of our many students and create their lesson plan accordingly. The classroom environment emphasizes respect for all Jewish children universally.

Curriculum:

We believe that real learning happens beyond the traditional textbook style of imparting information; a child really learns through engaging with the subject with all of one's senses and emotions. At our Hebrew School the children don't simply learn about Shabbat, rather, they experience Shabbat - they prepare for and celebrate a real Shabbat.

Our curriculum is developed using a hands-on, minds-on and souls-on approach, with age appropriate standards of knowledge and skills, incorporating STEM.

Lessons will cover a range of topics such as the Mitzvot, Holidays, Jewish History, the Land of Israel, and general concepts of Judaism. Meaningful school wide projects will accompany each unit as children learn the 'how's and 'why's of Jewish living. Through songs and discussions, children will become familiar with basic liturgy and prayers.

Hebrew Reading Curriculum

State-of-the-art reading program Ezer Mavo Lekriah, where Students advance in learning the letters and vowels, alongside activities games and flashcards, all in an efficient systematic and fun manner.
